Freedom from unsightly and uncomfortable varicose veins, that fits into your schedule.

Now you can treat the source of your varicose vein with non-surgical office based treatments.

## OFFICE BASED TREATMENT FOR

**Spider Veins**

**Large Varicose Veins**

**Venous Ulcers**

**Leg Swelling**

**Vascular Risk Assessment**

**Blood Clots**

If you're one of the more than 25 million Americans who suffer from uncomfortable and unsightly varicose veins, non-surgical treatment offered in the office is virtually painless and requires little-to-no downtime.

## You're Not Alone

Approximately 1 in 5 adult Americans suffer from superficial venous insufficiency

Varicose veins affect an estimated 40 percent of women and 25 percent of men

## TREATMENTS

- 1 Nationally renowned Vascular Medicine Board Certified Provider with over 20 year experience in Venous Disease and Vascular Medicine.
- 2 Treatment of Large Varicose veins is covered by most insurances, including Medicare and most private insurance companies. Our Billing and insurance specialist will assist you with all your questions.
- 3 Sclerotherapy is office based procedure for small veins, solution is injected into the veins using very tiny needle which help close vein shut.
- 4 Ultrasound guided Sclerotherapy uses ultrasound to locate veins and deliver medicine directly into the vein for maximum benefit.
- 5 Endovenous Ablation is an office based minimally invasive procedure, you can resume normal activities right after the procedure.
- 6 Phlebectomy is removal of small veins by making very small incision under local anesthesia
- 7 Laser is used for facial veins and very fine veins on the body
- 8 Vascular Risk Assessment: we can assess your risk of stroke, peripheral arterial disease (PAD) and aneurysm with ultrasound screening and ABI (ankle brachial index) for PAD.

SCHEDULE A  
COMPLIMENTARY  
SCREENING FOR  
**VEINS**

- 1 We will review your symptoms
- 2 We will outline plan of care and do limited ultrasound study and if necessary full ultrasound study will be scheduled.
- 3 Depending on availability, We are happy to accommodate special requests for evening and weekend hours.
